

Quick Start Guide for the Meazura RDA & Ecotone Handheld Software Version 1.11-B

NOTE: If you have already successfully installed this version 1.11 of the Ecotone Handheld Software and ONLY need to Re-install the Programs to your Meazura, Skip to Step 8!

1. Complete steps 1 - 5 on the Meazura Quick Start Guide **FIRST!** (included with Meazura RDA packaging)

- **WE RECOMMEND YOU FAMILIARIZE YOURSELF WITH THE MEAZURA PDA OPERATION BEFORE CONTINUING!**

2. Locate the CD labeled **Ecotone Handheld Software** and place in your CD drive.

This disk contains the software necessary for your Meazura RDA operation with the Ecotone product series and transport of the field data back to your computer hard-drive.

3. From your Desktop Start Menu, open the "My Computer" navigation window and locate the drive with the Ecotone CD. Select drive to display the disk file names: Installer for PalmOS Setup, JSync Installer Setup, and Manual (MS Word Document).

4. Run "Installer for PalmOS Setup.exe" application file.

5. From "My Computer" navigation window, go to: "C:\Program Files\Ecotone\JSync Installer" and run "Setup.EXE" (an Application file). If this is the first time the JSync installer has been installed on this machine, a status bar will appear and quickly progress, indicating this step is complete. You normally need to run Setup.EXE one (1) time only. Multiple request actually switch this application ON and OFF.

Note: If program was previously installed, you will receive message box stating the file is no longer needed, Wait till the program finishes and repeat Step 6 (run "Setup.exe") again, looking for the status bar.

6. **REBOOT YOUR PC**

7. To load programs onto your Meazura RDA, open "Palm Desktop" program by selecting the [Start] button in lower left of screen, select [All Programs], select the [Palm Desktop] category, select [Palm Desktop] icon which starts your Palm window. Select [Install] icon on the left tool bar which opens the install tool.

8. At top of "Install Tool" window, select "User" name of the Meazura from pull down menu. This

will be the name of the Meazura on which you wish to install the Ecotone programs.

NOTE: Select correct name, otherwise programs will not install on correct Meazura! If you do NOT know the name of your Meazura, refer to the Meazura manual found on the Meazura CD.

9. Click the [Add] button (upper right of the "Install Tool" window) and the "Open" window will appear. Navigate to

"C:\ProgramFiles\Ecotone\Handheld\" and find the following list of programs:

- j9_vm_bundle
- j9cl
- LevelConfig
- LevelData
- RainConfig
- RainData
- WMConfig
- WMDData

10. Select ALL of the above programs and click "Open" button in the "Open" window. Files will be placed in "Install Tool" window and "Open" window will close. Click "Done" and you will receive a message box stating that these programs will be installed during the next HotSync(r) operation.

11. **HotSync®** your Meazura RDA and files will be relocated to Meazura RDA under Ecotone category.

INSTALLATION COMPLETE!
